What to consider when making your choice:

Material

Here are your choices for your Giclee(s):

A. Archival Canvas:

- a. Epson's Exhibition Canvas Matte – Post coated with Satin UV/water protectant, mirror edges included. Option to have stretched to perfection on Jack Richardson's 1.5 inch heavy duty bars, tension wedges and D rings for hanging included.

B. Fine Arts Paper:

- a. Hahnemuhle Natural Bamboo – natural, warm-toned, slightly textured Fibre Paper. Natural OBA free paper made of 90% Bamboo Fiber and 10% cotton. "The cellulose requires minimal maintenance, grows quickly and doesn't need any pesticides, also uses much less water."
- b. Epson's Enhanced Matte Paper – An affordable, archival matte paper that does not sacrifice quality. Flat matte paper. Offers a unique opportunity to have high end prints at a lower price point.

Shipping: Rates will be quoted separately from artwork. Artwork prices are listed below.

For prints on paper, they will be rolled and shipped in a tube.

For canvas orders, rolling is an option (instead of stretched on frame) which will significantly reduce shipping costs. In this case, you will need to source a local company to stretch the painting for you. When requesting a shipping quote, please specify painting choice, size and material desired, (if *canvas*, **indicate if you want it shipped rolled or framed**) along with correct shipping address so I can provide you a quote.

BONUS: For orders \$350 and up, you will receive one 10-Minute Akashic Art Reading, personally done by me. It is a channeled message of how your painting will work with you and your energy field. This MP3 recording will be emailed to the email address provided when you place your order.
